

## DOOR PANEL LIMITED WARRANTY

Subject to the limitations and conditions set forth below, Lynden Door Canada, Inc. warrants from the date of installation (a) the door will be free of manufacturing defects in material and workmanship for a period of ten (10) years; and (b) our steel doors will not warp, crack or buckle under normal use during the period of this limited warranty.

Lynden Door Canada Inc's factory-finish prime coat will not have any extraordinary colour distortion resulting from a defect in manufacturing or materials for a period of five (5) years. Your door is primed with a durable polyester paint. We recommend, for lasting protection, that you apply a final coat of paint. Do not use dark coloured paint as sun exposure can cause excessive heat build-up and void the limited warranty.

Stile, rail and core show-through (telegraphing) shall not be considered a defect unless the faces of the door vary from a true plane in excess of 1/100 inch in any three-inch span. Deflection (up to ¼ inch), minor scratches or other visual imperfections shall not be considered defects. If the factory finish is visibly scratched, scuffed or otherwise slightly damaged, the finish must be repaired. Failure to maintain the finish will void this warranty.

Your warranty excludes:

- doors installed within five (5) miles of a body of saltwater - these doors are warranted to be free of manufacturing defects in materials and workmanship for a period of (5) years with a one (1) year warranty on factory-finish coatings
- failure to follow the handling, job finishing and installation instructions
- normal wear and tear
- doors with cutouts exceeding 0.560 square meters of the area of the face of the door
- doors with cutouts exceeding one-half the height of the door
- doors with cutouts, the edge of which is closer than 5" to any edge of the door
- doors that have not had the protective PVC coating removed with 30 days of initial installation
- problems due to misuse and abuse, or failure to follow care and maintenance instructions
- damage as a result of Acts of God (fire, flood, earthquake etc) and acts of third parties outside of our control
- problems due to water and/or air infiltration due to improper assembly or installation of door entry system
- problems related to improper finishing or finishing the door panel with a dark colour
- incidental or consequential damage

We only manufacture the door panels of the entry door system. We do not pre-hung nor provide frames, glass inserts, or hardware. Please contact your distributor or dealer regarding the warranty on the entire entry system.

Lynden Door Canada Inc, will at its option either (1) repair any door without charge, or (2) replace any door without charge in whatever stage of fitting and/or finishing it was originally supplied by the manufacturer, or (3) refund the price received by Lynden Door Canada Inc for any door, if the door is found not to comply with this guarantee. However, written notice of any claim under this guarantee must be given to Lynden Door Canada Inc promptly when discovered. In the case of a defect reasonably discoverable by inspection of each door upon receipt of shipment from the manufacturer, notice must be given within thirty days thereafter and before the door is hung or treated in any manner. Lynden Door Canada Inc shall not be liable for doors repaired or replaced without its prior written consent. Action on any claim for warp or for telegraphing may be deferred, at the option of Lynden Door Canada Inc for a period not to exceed 12 months from date of claim. If a door has been installed prior to such claim being made, the door must remain hung in the original installation during the period of deferment, to permit conditioning to humidity and temperature.
